Advice for UTSA student and other TRiO students:

I was so excited to be accepted because I knew I would find support and help. Luck brought me to Student Support Services. These actions will provide you with people, professors, or employers that will write strong letters of recommendation for you, promotions at work, and thinking highly of you.

Proverb: A good name is better than great riches and good favor is above silver and gold. When I think of someone that I can't depend on, or doesn't do their work, it makes me mad.

How can you practice this skill now at UTSA so that you will be a person that people look up to or that employers will cherish?
